Net patient service revenue	\$ 5,874,997 \$	5,399,843	

Consistent with its goal of providing medical care to the sick, reglaesds of their ability to pay for services, MMA provides patient canwithout charge or at amountess than established rates. Certain of these amounts are pursued for codectinrough the efforts of internal and external business office personnel. Collections on suclifi-page balances represented approximately \$291,235 and \$263,000 for the years ended June 30, 2009 and 2008, respectively. Amounts not expected to be collected from fspeay accounts are classified asacity care and noreflected in net patient service revenue.

Periodically, management assestives collectability of self-payaccounts based upon historical collection experience. The results to fs review are then used too ake any modifications to the amount recorded as charity care to establish appripate self-pay accounts receivable balances.

Laws and regulations governing Medicare and Medicaid orgrams are complex and subject to interpretation. As a relative relative relation are consolided estimates will change by a material amount in the near term. MMA believes that it is in compliance with all applicable laws and regulations and is not are any pending or the atened investigations involving allegations of potential wrongdoing the atould have a material effect on the consolidated financial statements. Compliance with any regulatis can be subject to future government review and interpretation well as significant regatory action including fines, penalties, and exclusion from Medicare and Medicaid programs.

### Accounting Pronouncements

In August 2008, the FASB issued Staff Position No. 11 Endowments of Not-for-Profit Organizations: Net Asset Classification of FurSdsbject to an Enacted Version of the Uniform Prudent Management of Institutional Fundst, Aand Enhanced Disclosures for All Endowment Funds which, among other things, provides guidearon the net assetassification of donorrestricted endowment funds fornat-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of stitutional Funds Act of 2006 (UPMIFA) and additional disclosures about amganization's endowment fund Effective July 1, 2008, the State of Georgia adopted UPMIFAhe School reflected the change as of the beginning of fiscal year 2009 as a cumulative fect adjustment assacted with a charge in accounting principle in a separate line on the statement of activities amathges in net asset sequired disclosures are included in Note 6.

In September 2006, the FASB issued StatemoenFinancial Accounting Standards (SFAS) No. 157, Fair Value Measurement(SFAS No. 157), which defines fair value, establishes a framework for measuring fair value in accordance generally accepte accounting principles (GAAP) and expands disclosuresbout fair value measurements. The changes to previous practice resulting from the applican of SFAS No. 157 relate to the finition of fair value, the methods used to measure fair value, athet expanded disclosures about fair value measurements. The definition of fair value inestathe exchange price notion used in earlier definitions of fair value. SFAS No. 157 clarifiesath exchange price is the price in an orderly transaction between market participants to sellatize or transfer the liability in the market in which the reporting entity would transact for these tor liability, that is, the principal or most advantageous market for the asset or liabilitye Tilansaction to sell the asset or transfer the liability is a hypothetical transaction at the measurement dates sidered from the perspective of a market participant that holds the assetownes the liability. SFAS No. 157 provides a consistent definition of fair value which doeses over entity-specific inputs. In addition, SFAS No. 157 provides a frameworfor measuring fair valueand establishes a three-level hierarchy for fair value measurents based uarchy for fail.anti5.7(m)]Tn-1920.6 -19]Tn-1920.6 -19]Tn-

- Quoted prices for identical or similassets in markets that are not active;
- Observable inputs other than quoperides for the asset or liability;
- Inputs derived principally from, or comborated by, observable market data by correlation or by other means.

Level 3: Unobservable inputs for the asset dorility. Unobservable inputs should be used to measure the fair value to the extendation be used inputs are not available.

Observable inputs reflect the assumptions mappledicipants would use ipricing the asset or liability developed from sources independent the reporting entity and unobservable inputs reflect the reporting entity's onvassumptions about the assumptions imarket participants would use in pricing the asset or liability developed sed on the best information available in the circumstances.

The School's adoption of SFASoN 157 did not have a materiant pact on its consolidated financial statements. The School has segregate financial assets that are measured at fair value on a recurring basis (at least annually) inteonthost appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date in the table below.

The carrying amounts of cash and cash equivalent counts receivable ther receivables and accounts payable and accrued expenses approximitate lue due to the relative terms and short maturity of these financial instruments. There investments, which approximate fair value, of these investments are based upon quoted market prices rket prices of similar instruments.

A reasonable estimate of the fair value of the loans receivable from students under government loan programs and advances from Federalegroment for student loans could not be made because the loans receivable are not salable armonly be assigned to the U.S. Government or its designees.

The carrying amount of the bonds and noteşable approximates fair value since these financial instruments bear interest at variable rates which approximate current market rates for notes with similar maturities and credit quality.

Report on Compliance with Requirementsphicable to Each Major Program and on Internal Control Over Compliance Anccordance WithOMB Circular A-133

The Board of Trustees Morehouse School of Medicine, Inc. and Affiliate

Compliance

We have audited the compliance of Morehousho&c of Medicine, Inc. and Affiliate (the School) with the types of compliae requirements described in the US Office of Management

School's internal control over orgpliance with the requirements that could have a direct and material effect on a major federal program ideor to determine our auditing procedures for the purpose of expressing our opinion on compliance, not for the purpose of expressing an opinion on the effectiveness of internal controler compliance. Accordingly, we do not express an opinion on the effectiveness of the Scol's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow managementemployees, in the normal course of performing their assigned futinous, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis.
